

# IRE 250 C1 ErP

### IRE Circular

- Insulated duct fan with circular connections.
- Equipped with 50 mm of thermal and acoustic insulation makes it ideal for handling cold air.
- Designed for high pressure and long duct runs.
- The design priorities functionality, durability and longevity.
  Impeller with forward curved blades.
- The external rotor motor has maintenance-free sealed ball-bearings.
- Integrated motor protection.
- Junction box has enclosure class IP 54.
- For speed control a transformer or electronic speed controller can be connected.
- $\bullet$  The housing is manufactured from galvanized sheet steel.
- Duct connections are equipped with rubber seals.
  The fan is intended to be installed in a duct system.
- A duct connected fan can be installed outside or in damp environments.

## Accessories

- VRTE 1
- VRDE 1,5
- VRS 2.0
- Local Demand Controller Kit MB Universal
- MK 250
- BSV 250
- RSK 250
- YG 250 VK 250 FLK 250
- FLF 250
- LDC 250

• To comply with the ErP 2018 regulation, a local demand controller must be used.
